Technology-enhanced online teaching and learning became a pressing issue due to the COVID 19 Pandemic. The European Union funded DITECH, a national project part of Erasmus+ Capacity Building Programs in Higher Education (2021-2024). The project seeks to empower academic staff at Georgian HEIs on the innovative educational technology adoption in curriculum reform and course design and to improve their digital competencies and skills through groundbreaking education programs and training that use diverse delivery methods, including on-line/blended teaching and learning.
